Professional Concentrate

A gentle, safe and effective insecticidal wash for horses and other animals.

Advantages:

UNIQUE: Horse wash is not just another animal wash converted from an anionic human shampoo type formula. Dog wash is an innovative, non-ionic rich, formula. It is purpose built and specifically designed for the requirement of horses and like animals.

GENTLE: Rich in coconut oil Horse Wash cleans and conditions the coat without defatting the animal's skin. The larger molecule, non-ionic was actives gently lift dirt and excess oiliness away without drying or irritation. Horse Wash is non-irritant even to sensitive areas like eyes and ears.

SAFE: Safe for use on all animal coats. The Pyrethroid insecticide is not absorbed through the skin. It is non-toxic to humans and all warm bloods animals and has very low aquatic toxicity.

EFFECTIVE: The insecticide active "Permethrin" effectively skills all fleas and other insects on animal's coat during the washing process.

CONDITIONING: Contains super-fating agents that remain after rinsing to replenish the natural condition of the coat and leave it shiny and soft.

ECONOMICAL: A high quality and highly concentrated shampoo that gives superb results when diluted as directed.

HORSE WASH

Product of Hammersley

204 Glebe Rd, Booval QLD 4304
